Live with Ideas

	DVD-Quality MPEG 4 video You can have DVD quality 640 x 480 (VGA) and 320 x 240 (QVGA) video and save them in MPEG 4 format with less memory.
	True 5.0 mega pixel CMOS sensor Capturing the maximum resolution up to 11.0 mega pixels in perfect clarity. The true 5.0 mega pixel CMOS sensor makes sure your photos are colorful and sharp.
	2.4” LTPS LCD display Large LCD screen helps you frame your subject quickly and bright resolution assists your composition with ease in the dark.
	Security Motion Detect Camera will start to record video once if there is a movement for 3 consecutive seconds and stop recording if there is no movement for 3 seconds just like a security system.
	Photo Frame This DV camera features a lot of popular electronic photo frames. You can take your picture with a preferred electronic photo frame.
	Two-in-One and Multi-Snap With camera set to Two in One mode, you can combine two snapshots into one picture or set it to Multi-Snap Mode and take five continuous pictures.
